Planning	36	19	11	Millions

Community Needs Comments:

- Funding to develop a Housing website / call center for resources in reference to all: Single Family – including townhomes; down payment assistance, home rehab resources, rental availability, and transitional housing.
- I have no idea how many dollars it will take to address the issues listed
- More inclusive programs needed for parks and/or recreation
- Handicapped services needed in relation to serving persons with disabilities
- A day shelter is needed for public facility needs
- Child care centers are needed, especially for children with additional needs
- Truly affordable housing is needed when it comes to public facility needs
- Rather than a senior center, a community center for all is needed
- A youth center for all abilities, ages, and cultures is needed
- Park or rec center for all abilities, ages, and cultures is needed
- Transitional housing services are needed for other public facilities
- Rather than senior services, services for all ages, cultures, and abilities is needed
- A more flexible mass transit service is needed
- For planning needs: bring the best people to the table, and include citizens of a variety of backgrounds
