

CONSTRUCTION NOTICE

Sidewalk maintenance is happening soon.

WHAT IS HAPPENING?

- Contractors are addressing the defective sidewalks marked in pink and replacing select pedestrian ramps.

WHEN WILL THE WORK OCCUR?

- Between April 22 to October 25, with total time of impact to individual panels being 1-2 days for foot traffic and 3-5 days for vehicle traffic (where replacements are in front of driveways).
- 7:00 am to 7:00 pm, Monday through Friday

HOW WILL THIS IMPACT ME?

- Pedestrians will need to self-detour around construction areas.
- Access to your driveway may be impacted – crews will make contact with individual residents in those situations.
- Utility locators may mark underground utility lines in the boulevard.
- Boulevard areas disturbed during construction will be restored with dirt/grass seed. Please water, if you are able, to help establish the new grass.
